

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS UNITED STATES AIR FORCE
WASHINGTON 25, D.C.

27 NOV 1962

Dr. Albert D. Wheelon
Assistant Director for Scientific
Intelligence
Central Intelligence Agency
Washington 25, D. C.

Dear Dr. Wheelon

Upon the recommendation of Dr. Stever, Chairman of the Air Force Scientific Advisory Board, I am pleased to invite you to accept appointment as an Associate Advisor to the Board beginning 1 January 1963. I should also like to thank you for the valuable time and assistance you have given us during the past year.

Upon request by the Secretary of Defense, certain procedural and organizational changes bearing on the Board have been implemented recently wherein it now reports to both the Secretary of the Air Force and to the Chief of Staff, and its size has been reduced appreciably.

Because of these changes, particularly the limitation in membership, and the fact that you are currently a full-time employee of the Government, your affiliation with the Board can most appropriately be accommodated as an Associate Advisor. In this capacity your affiliation will not be chargeable to the Board's basic membership roster.

I hope sincerely that your past association with the Board has been as beneficial to you as it has to the Air Force, and that you will find it possible to continue in this important work.

Sincerely yours

A handwritten signature in cursive script, reading "James Ferguson", is written over the typed name.

JAMES FERGUSON
Lt General, USAF
Military Director
USAF Scientific Advisory Board
